

PRESIDENT: We have a request, Senators, could I have your attention. I very carefully marked down the order in which I saw the lights come on on the previous issue and I will preserve that for some purpose. If you want to turn your lights off now that were on another resolution, you may do so.

CLERK: Mr. President, Senator Warner moves for the introduction of Request #1483 by the Appropriations Committee.

SENATOR WARNER: Mr. President, members of the Legislature, you will be happy to know that I have three additional bills to introduce but these are on behalf of the committee. These are all, two of them are corrective deals. Request #1483 is the establishment of an internal revolving fund within the Department of Education. It had been anticipated that this could be done on an administrative level within the DAS but subsequently through those discussions it's been decided that the requirement for a statutory authorization will be necessary, and the next request following this will deal with the Department of Motor Vehicles and it is the same kind of condition but it is necessary to have the authorization to permit them to operate the way they need to. So, Mr. President, I move #1483 be introduced please.

PRESIDENT: Senator Schmit. Any other discussion of this request? Record your vote. Would you Senators please return to your desks to vote on this request for the introduction of a bill. Record.

CLERK: 35 ayes, 0 nays on the introduction of the bill, Mr. President. New bill, LB 962, title read. Mr. President, Senator Warner now moves for the introduction of Request #1516 by the Appropriations Committee.

SENATOR WARNER: All right, Mr. President, this bill deals with the establishment of a distributive fund within the Department of Motor Vehicles. It deals with the collection of those funds that are collected by the state under the prorate division in trucks. The policy that is currently in effect has been in effect since October. Again, it was in one of the areas that they thought administratively could be done but it since has been determined it needs statutory authorization. What it does permit is a considerable reduction in book work that was formerly required by the Department. It also simplifies the method for the applicants for these licenses to apply and the third benefit is that it will permit the temporary investment of these funds during the process that is necessary while the allocation of the prorated funds between the various states is being determined. Mr. President, I move that the bill be introduced.

PRESIDENT: Any further discussion? The question is the granting of this request by Senator Warner. Record.

CLERK: 32 ayes, 0 nays on the motion to introduce, Mr. President. New bill, LB 963, title read. Mr. President, Senator Warner now moves for the introduction of Request #1517 by the Appropriations Committee.

SENATOR WARNER: Mr. President, Request #1517 deals with the suggested distribution for salary adjustments for state employees for the coming year and is necessary as the vehicle
